- Sector 14, Faridabad, Haryana
- Sector 85, Faridabad, Haryana 121002

Sariska National Park & Tiger Reserve

Area : 866 km²,
Altitude : 300 m and 722 m MSL,
Rainfall : average 650 mm (per year),

The Park is situated 106 km (66 mi) away from Hindaun, 107 km (66 mi) from Jaipur and 200 km (120 mi) from Delhi. It is a part of the Aravalli Range and the Kathiawar-Gir dry deciduous forests' ecoregion. It is rich in mineral resources, such as copper. In spite of the Supreme Court's 1991 ban on mining in the air area, marble mining continues to threaten the environment.

Sariska National Park & Tiger Reserve

Sariska Tiger Reserve is a national park and tiger reserve located in the Alwar district of the state of Rajasthan. The topography of the protected area comprises scrub-thorn arid forests, rocky landscapes, dry deciduous forests, rocks, grasses and hilly cliffs. This area was a hunting preserve of the Alwar state and it was declared a wildlife reserve in 1955. It was given the status of a tiger reserve making it a part of India's Project Tiger in 1978. The wildlife sanctuary covers an area of 866 km² (334 sq mi). The reserve was declared a national park in 1982, with a total area of about 273.8 km² (105.7 sq mi). It is the first reserve in the world to have successfully relocated tigers.

Tiger Population

In 2004, there were strong and persistent reports that no Bengal tigers were being sighted in the reserve. It was not only that tigers were not being seen but also and more alarmingly, there was no indirect evidence of the tigers' presence (such as pug marks, scratch marks on trees, etc.). The Rajasthan Forest Department took the stand that "the tigers had temporarily migrated outside the reserve and would be back after monsoon season". There were 16 tigers in 2003. Rajasthan Forest Department and the Project Tiger Director declared an "emergency tiger census" in Sariska and the Central Bureau of Investigation, India's intelligence agency, conducted a probe in 2005. After a two-month investigation they finally declared that Sariska did not have any tigers left. Poaching was blamed for the disappearance of tigers.

Project Tiger by NTCA

In order to repopulate Sariska with tigers, three tigers were relocated to the reserve and authorities planned to relocate two more tigers by the end of the following year. Recently, two tiger cubs and their mother were spotted in the reserve bringing the total number of tigers to seven with five adults. In July 2014, 2 more tiger cubs were spotted taking the total of tigers in the reserve to 11 with 9 adults. Two cubs were further sighted in August 2014, making the total of tigers in Sariska to 13, with 7 females, 2 males and 4 cubs. This significant increase in tigers' population has been welcomed by wildlife enthusiasts and therefore the footfall has been increased by a huge amount.

Flora & Fauna

Apart from the Bengal tiger, the reserve includes many species of wild life, such as the Indian leopard, jungle cat, caracal, striped hyena, Indian jackal, chital, sambhar, nilgai, chinkara, four-horned antelope, wild boar, hare, hanuman langur, rhesus monkeys. Sasrika is also ethereal for bird watchers with some of the rarest feathered species like grey partridge, white-throated kingfisher, Indian peafowl, bush quail, sandgrouse, treepie, golden-backed woodpecker, crested serpent eagle and the Indian eagle-owl.

The dominant tree in the forests is dhok (*Anogeissus pendula*). Other trees include the salar (*Boswellia serrata*), kadaya (*Sterculia urens*), dhak (*Butea monosperma*), gol (*Lannea coromandelica*), ber (*Ziziphus mauritiana*) and khair (*Acacia catechu*). Bargad (*Ficus benghalensis*), arjun (*Terminalia arjuna*), gugal (*Commiphora wightii*) or bamboo. Shrubs are numerous, such as kair (*Capparis decidua*), adusta (*Adhatoda vesica*) and jhar ber (*Ziziphus nummularia*).

Siliserh Lake

Siliserh Lake is a beautiful lake , Spread in 7 sq Kms area, Siliserh Lake is located just 165 Kms from Dhaula Kuan Delhi and 110 Kms is Jaipur, Siliserh Lake is situated in north eastern part of Rajasthan, Lake was built by maharaja Vinay Singh in year 1845. The Lake and reservoir of Siliserh was created by Maharaja for people of Alwar, Because water can be channeled to Alwar city A beautiful Lake palace was also built by Maharaja for his beloved wife Shila. Siliserh Lake is situated just 13 Kms from Alwar city. Lake is that beautiful that every one want to stay for some more time, Lovely Siliserh Lake Palace provides option for stay with a breath taking view of 10.5 Kms lake, Beautiful back drops of Aravali hills adds it beauty , One can spend many hours by just having a look of the lake from Terrace of Lake Palace Siliserh
